

The Dark Island

I think of storms upon that sea
And of islands far away
And the heart is lonely
And longing for the Dark Island

I can see the lights in the bay
That were a guide for me
Though I'm far away
I'm longing for the Dark Island

[Chorus:]
For the Dark Island
And I think of hills in the haze
And I think of lanes
I left behind me
And I think of soft summer nights
And the long, long ago

We're divided by the sea
And yet, I know you're near to me
Though I'm far away
I'm longing for the Dark Island

[Chorus:]
For the Dark Island
And I think of hills in the haze
And I think of lanes
I left behind me
And I think of soft summer nights
And the long, long ago
