

Trust

We jump through hoops and we dance on
wires,
Walk on broken glass and play with fire,
Though we're blind folded when we turn on the
lights
I know that everything will be all right.

If you trust in true love and trust in time
Trusting forever, trust this heart of mine
We can lose ourselves, just like lovers do
If you trust in me, like I trust in you
Trust in me, like I trust in you

Too many people have been let down
By broken promises on broken ground
And there's cracks in the pavement
I don't want to fall through
Hold on to me and I'll hold onto you

If you trust in true love and trust in time
Trusting forever, trust this heart of mine
We can lose ourselves, just like lovers do
If you trust in me, like I trust in you
Trust in me, like I trust in you

Out there I sing this with trusting eyes
Trying to cut away the good in our lives
But I don't care what they believe
With you I have everything that I need

If you trust in true love and trust in time
Trusting forever, trust this heart of mine
We can lose ourselves, just like lovers do
If you trust in me, like I trust in you
Trust in me, like I trust in you
