

## Shine Your Light

Shine your light on me  
Help me find my way  
Shine your light on me  
Guide me through the day

When my faith is shaken  
And my hope is gone  
Shine your light on me  
Help me carry on

Shine your light on me  
In the darkest night  
Shine your light on me  
Make everything all right

When I'm lost and searching  
For a sign to see  
Shine your light on me  
Bring me back to peace

Oh, the road is long  
And the journey is tough  
But with your light to guide me  
I know I'll be enough

Shine your light on me  
Illuminate my soul  
Shine your light on me  
Make me feel whole

When the world is heavy  
And I'm feeling small  
Shine your light on me  
And I'll stand tall
