

Love Me Tonight

I know that it's late
And I really must leave you alone
But you're good to hold, and I feel such a
warmth
When you get close to me

Oh, how I'd love you to stay
Till the night becomes a day
Love me tonight
Make it all come true
Love me tonight

I've waited so long for a girl like you
To come my way
Love me tonight
Let me love you baby
Love me tonight

There's a moon up above
But it shines with my love
How I'd love you to stay
Till the night becomes a day

Love me tonight
Make it all come true
Love me tonight
I've waited so long for a girl like you
To come my way
Love me tonight
Let me love you baby
Love me tonight

Love me tonight
Make it all come true
Love me tonight
I've waited so long for a girl like you
To come my way
Love me tonight
Let me love you baby
Love me tonight
