

If the Whole World Stopped Loving

Rosycompany.co.uk

If the whole world stopped loving
The way that you have stopped loving me
Then the heartaches and tears you caused me
Would be gone from my memory
I'd be free as the breeze that's blowing
And I'd think of you not anymore
If the whole world stopped loving
The way that you have stopped loving me

If the whole world stopped dreaming
About the things that could never be
Then the lonely nights wouldn't be as long
And the day wouldn't seem so sad to me
I'd forget about your love so sweet
And the way that you once cared for me
If the whole world stopped dreaming
About the things that could never be

But the world keeps on loving
And the dreams linger on in my mind
I know that you're gone
But my love keeps holding on
And it hurts deep inside

If the whole world stopped hoping
For someone to be their own
Then perhaps I could start my life anew
But until then I'll keep holding on
To a love that I'll never have again
And the dreams that I'll never see
If the whole world stopped hoping
For someone to be their own

But the world keeps on loving
And the dreams linger on in my mind
I know that you're gone
But my love keeps holding on
And it hurts deep inside

If the whole world stopped loving
The way that you have stopped loving me
Then the heartaches and tears you caused me
Would be gone from my memory
I'd be free as the breeze that's blowing
And I'd think of you not anymore
If the whole world stopped loving
The way that you have stopped loving me
